

RN-BSN Bachelor of Science

The **RN-BSN Bachelor of Science** program is designed for the student who currently possesses an Associate Degree and Diploma Registered Nurse (RN) license.

Advance your nursing career with our blended and full distance tracks for degree completion. Our program is offered for working nurses who require greater flexibility in their class schedule.

Program Objectives include:

- Critical thinking to synthesize knowledge derived from nursing, natural and behavioral sciences, humanities, and arts in professional nursing practice.
- Practice professional nursing competently and safely in diverse settings, utilizing caring, critical thinking and therapeutic nursing interventions with individuals, families, aggregates/populations, and communities at any developmental stage and with varied health experiences.
- Utilizing the knowledge, skills and technologies to practice independently and collaboratively with all health professionals as an advanced beginner professional nurse.
- Applying concepts of leadership and management to the practice of professional nursing to enhance quality and safety in health care.
