Why ICH?

Integrity College of Health provides hands-on, real world training that prepares you for a career in a broad scope of opportunities to give you better job options in the future. We offer day and night classes so that you can complete your program around your lifestyle. ICH staff is qualified and caring with a focus on helping you to succeed providing real tools to thrive in your next work environment. Integrity College of Health provides job placement assistance to all qualified graduates. The college makes no claims guaranteeing employment upon graduation. Federal Financial Aid may be available, to those who qualify.

If you are detail-oriented, have great hand-eye coordination and like being with people, sonography may be the perfect career for you. The Diagnostic Medical Sonography (DMS) program at integrity College of Health (ICH) is a great place to begin and you can complete our full-time program in less than two years.

We will prepare you to be part of a profession with high potential and growth. ICH students can enter the job market successfully with a program involving classroom theory, lab procedures and externship.

The Diagnostic Medical Sonography program is designed to prepare graduates for entry-level employment as an ultrasound technologist in the general abdomen, OB/GYN, small body parts and vascular. The graduate can work in imaging centers, physician's offices, clinics, mobile units or hospitals.

Integrity College of Health utilizes **SonoSim** technology in the Diagnostic Medical Sonography program. The SonoSim Ultrasound Training Solution offers state-of-the-art educational modules that complement students' training by providing remote hands-on ultrasound training, real-patient scanning cases and pathologies, didactic instruction, and assessment.

According to the U.S. Bureau of Labor Statistics*, overall employment of medical sonographers is projected to grow 10% from 2022 to 2032, much faster than the average for all occupations. * <https://www.bls.gov/ooh/healthcare/diagnostic-medical-sonographers.htm>
